

# EZ-ROLLER™

PATENT PENDING

## 3-in-1 Rolling Tennis Ball Retriever

Retrieve, dispense and store tennis balls with unlimited capacity.

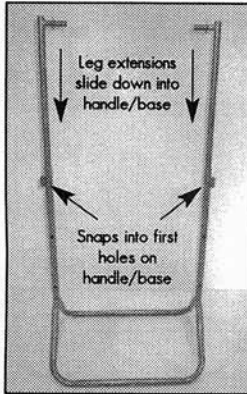

Refillable EZ-Roller Cylinders...store up to 100 balls in each...sort balls by quality for beginner through advanced levels.

### INSTRUCTIONS

#### ASSEMBLY

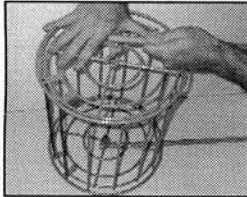

##### 1. Insert Leg Extensions Into Handle/Base

Snaps must click into position using first set of holes. EZ-Roller™ is now FULLY EXTENDED.

##### 2. Insert Cylinder Into Leg Extensions

Turn Handle/Base assembly on its side. Push and twist cylinder hub down onto leg extension nearest the floor. Snap into place. Lift top leg slightly, allowing cylinder to stand between legs.

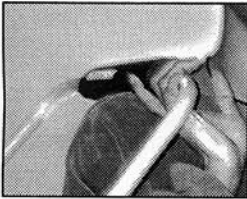

Insert top axle into cylinder hub. Depress snap until it clicks into place.

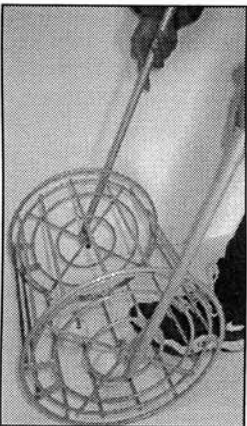

##### 3. Shoulder Cushion

Wrap Shoulder Cushion around handle for carrying comfort. **Note:** Remove shoulder cushion when arriving at court-side and store in a safe place. **EZ-Roller is ready to use.**

#### HEIGHT ADJUSTMENTS

EZ-Roller has 3 adjustments, one for adults, children and for carrying. To adjust height, place foot in cylinder spokes to hold EZ-Roller steady. Depress snaps simultaneously while lowering handle to desired height.

##### TOP HOLE:

Adult height (fully extended)

##### MIDDLE HOLE:

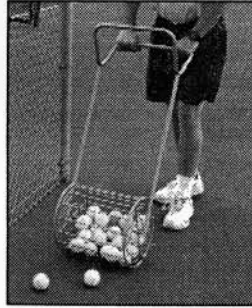

Child height

##### BOTTOM HOLE:

Carrying height

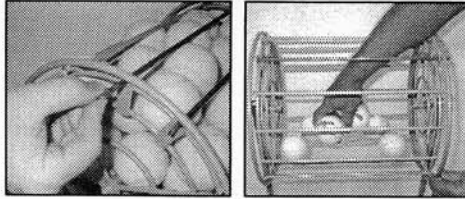

#### PICKING UP BALLS

Position EZ-Roller so cylinder is on the ground and handle is in hand. Push EZ-Roller over balls. Balls will pop into cylinder. Picking up balls is now easy and fun.

#### DISPENSING BALLS

Remove either one or two rods (depending on desired opening size) by unscrewing them from cylinder. No tools are necessary! Store rods in holders on sides of legs until needed. Remove balls by hand or turn unit over to dump balls into a cart.

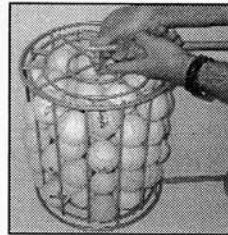

Re-insert rods and hand tighten when ready to pick up balls.

#### REMOVING CYLINDER

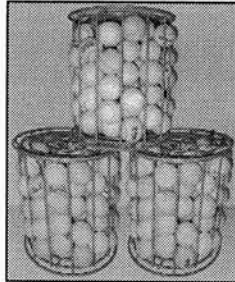

Always set EZ-Roller on its side with the legs in the FULLY EXTENDED position. This will prevent a full cylinder from falling off handle during removal.

Depress snaps on each axle, spreading legs to remove filled cylinder.

#### UNLIMITED BALL CAPACITY

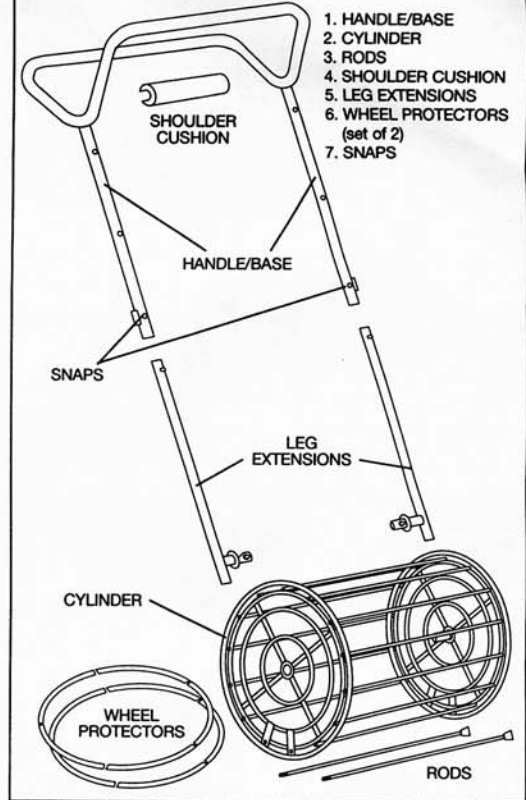

REFILL cylinders can snap on base for unlimited ball capacity. Each refill cylinder will increase ball capacity by 100 balls. Additional cylinders can be purchased separately.

#### MAINTENANCE

Whenever needed, add one drop of 3-in-1 oil or similar oil to all snaps, ends of legs where wheels rotate on leg ends, and threads of both removable rods. Never store EZ-Roller outside without protection from elements.

#### REPLACEABLE PARTS

### LIMITED WARRANTY

SET-USA warrants to the original purchaser that the EZ-Roller™ ("Product") purchased is free from defects in materials and workmanship. Should any defects develop under normal use, SET-USA will replace or repair the defective Product for a period of one year from the original date of purchase, provided it is returned to SET-USA by an authorized dealer, prepaid at the purchaser's expense. This warranty does not apply to any Product exhibiting wear greater than 10% of the original material thickness, or to any defect caused by negligence, abuse, misuse, unauthorized alteration, or to any damage caused by shipping and handling.

All returns must be processed by an authorized SET-USA dealer, and have a Return Authorization Number sustained by SET-USA.

The Return Authorization Number must be identified on the carton in which the Product is returned, to ensure proper processing of the warranty claim.

SET-USA's obligation under this warranty is limited to replacement or repair of the defective Product, and no one is authorized to promise any other liability. SET-USA shall, in no event, be liable for any incidental or consequential damages.

This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.
