

# INSTALLATION INSTRUCTIONS

## 3" Square Net System

### Parts List:

- A 2- 10'6" x 3" square poles
- B 1- Collar with reel and removable hardware
- C 1- Unicourt Net with side bracing & 4 bungee cords
- D 2- Black caps
- E 1- Set of collar braces
- F 1- Collar w/ eyebolt

### Tools Needed:

- level
- shovel
- concrete
- 9/16" wrench
- 3/16" allen wrench (included)

1. The poles should be sunk to the depths shown on the illustration below. With concrete one foot below the end of the pole. The poles should be 28 feet apart for the standard 30 foot wide court. Ground Sleeves are optional. Concrete installation may vary upon soil condition.
2. Slip all collars and braces over the top of poles. Place caps on the tops of poles. Set collars and braces according to the height adjustment of the game you want to play. (See Height Adjustment Instructions.)
