

WINDSCREENS

Windscreens are an attractive and functional way to reduce bothersome noise, wind and visual distractions. With these adverse elements removed, concentration and level of play improves. Douglas® offers you more choices, better service, superior fabrication and attention to detail that is unsurpassed in the industry.

Open Mesh Poly-Pro

Open Mesh Sport

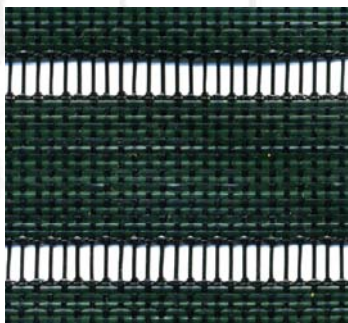

Vinyl Coated Polyester

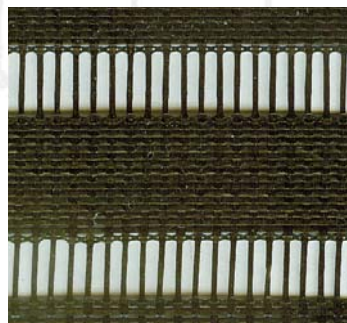

Polypropylene - Durability

Available in OMP (Open Mesh) or CMP (Closed Mesh) material. 100% Polypropylene material is our most popular windscreen fabric. This low-maintenance material offers classic good looks, and highly durable performance. Douglas® polypropylene material is heat-set so your screens will never shrink or change shape. Weather and UV protection is extruded into every fiber of Douglas® Polypropylene windscreen for maximum performance and long life.

Windscreen Features

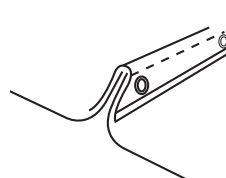

For strength and durability, our windscreens feature these unmatched industry standards:

**Figure 1
Extra-Strong Hems**

**Figure 2
Reinforcement Tape**

**Figure 3
Center Tab Hem**

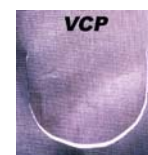

- Our extra-strong hems are constructed with 28 oz. vinyl inserts double sewn to 1-1/2" wide (Figure 1)
- Our Windscreens are available in standard 6' and 9' heights and in custom heights by quotation
- Any screen width is available; however, 60' is the maximum recommended width per panel
- All hems include #2 brass grommets spaced on 18" intervals
- All 9' screens include Center Reinforcement Tape (CRT) with grommets for anti-billowing installation (Figure 2)
- Optionally, 9' screens may substitute a Center Tab hem construction (Figure 3) for anti-billowing installation

Air Vents

AVR (Item # 21002)

Reinforced air vents, installed at 10' intervals, are optional on all windscreens and are recommended for closed mesh screens and 9' high screens.

AV (Item # 21001)

Die-cut and heat sealed air vents are available for vinyl-coated polyester screens only. Recommended for all VCP screens

Windscreen Logos & Advertisements

Turn your chain link fence into an advertisement and earn thousands of dollars for your organization. Custom designed to fit your needs. Call for additional information and pricing.

Batter's Eye

Custom made to your specifications from polypropylene or vinyl coated polyester. Framework and installation accessories are not included. Contact us for more information and pricing.

Outfield Distance Markers

- Heavy-duty distance markers hang on the outfield fence, with the distance permanently marked
- Numbers are heat set for added durability
- Double stitched around the perimeter with grommets evenly spaced for easy installation
- Markers can hang vertically or horizontally
- Choose from VCP windscreen material or solid vinyl
