

Douglas® Ball Park Netting

Protective and boundary netting is used to protect players, spectators, scoreboards, buildings and other structures in and around the ball park. The netting is customized to fit your needs and is completely weather-treated. Netting is either finished with black reinforced vinyl edging or a rope border. Please call for additional information and pricing.

Reinforced Vinyl Edging

Rope Border

#18 Twisted Knotted Plateena

Professional grade high impact backstop and protective netting

- #18 Twisted, Knotted, UHMPE Ultra High Molecular Weight Polyethylene; Trade Name: Plateena (Similar netting trade names include Dyneema or Spectra)
- Treated for UV & weather resistance
- Finished with a 7.0mm rope border with a 11,023 lbs. break strength.

1-3/4" square mesh
#18 Black (Heavy Weight) 462 lb. break strength

The best of the best in Professional Backstop Netting! Provides Maximum Protection with Maximum Viewing

Braided Knotted Polyethylene

Great for high impact backstop and protective screen netting.

- Reinforced vinyl edging only
- Extruded solid core to resist weather and UV
- Only available in black

1-3/4" square mesh
3.0 mm (Medium Weight) 285 lb. break strength

Rigid, low stretch helping it sustain its form. Solid Core! Don't be fooled by cheap hollow core netting.

Premium Knotless Polypropylene-Pylon (High Tenacity)

Great for high impact backstop and protective screen netting.

- Reinforced in vinyl edging or rope border
- Extruded to resist weather and UV
- Available in black or white and green

Sizes Available: 1-3/4" and 4" square mesh
3.5 mm (Heavy weight) 325 lb. break strength
3.0 mm (Medium weight) 250 lb. break strength

Most durable, unmatched weather and UV protection! Maximizing Longevity.
