

Douglas® Batting Tunnel Frames

- Constructed using 4" square, heavy-duty steel poles
- Double batting tunnel frames share center poles to allow side-by-side installation eliminating the need for extra poles and ground footings (See below)
- Black, baked-on polyester powder coat finish
- Each pair of poles are reinforced using 13-gauge galvanized steel crossbars
- Crossbars feature Allied's® zinc Flo-coat galvanization process for maximum protection
- Our unique design allows for the tunnel's net to easily be adjusted
- System includes everything needed to install and hang net: chain, cables, hooks, collars, ground sleeves and c-snaps
- System can be adjusted to fit custom net widths and lengths
