

Douglas® Batting Tunnel Nets

Douglas® batting tunnels are available in seven standard sizes and manufactured using three premium materials. Douglas® offer this variety in order to meet each customer's specific needs and applications. Tunnels feature overlap-style entry door at one corner on short end dimension.

Tunnels have reinforced rope borders around the perimeter and along the top center. Douglas® can also manufacture custom batting tunnels to your specifications. Optional net dividers and net savers are available.

Douglas® HTPP Knotless High Tenacity Polypropylene (Pylon) Black Tunnels:

Pylon netting is extruded to permanently resist weather, UV, mold and mildew. The pylon material is stronger and more durable than nylon netting. Available in 3.0mm Collegiate grade with a 3-year warranty, or 3.5mm Professional grade with a 4-year warranty. All tunnels are made using 1-3/4" knotless square mesh to reduce sag and improve appearance. All tunnel borders and

top centers are reinforced with 5/16" rope. Standard sizes are listed below. Tunnels can be customized to your size specifications. Custom tunnels use reinforced vinyl instead of 5/16" rope for borders and top centers. All nets include a convenient overlap style entry door. Please call for custom quotes.

Professional, BT-PRO 3.5

(3.5mm Knotless; 4 Year Warranty)

12' H x 12' W x 55' L (Item # 36038PP)
12' H x 14' W x 55' L (Item # 36036PP)
12' H x 12' W x 70' L (Item # 36033PP)
12' H x 14' W x 70' L (Item # 36035PP)
12' H x 12' W x 75' L (Item # 36034PP)

Collegiate, BT-3.0

(3.0mm Knotless; 3 Year Warranty)

12' H x 12' W x 35' L (Item # 36022)
12' H x 12' W x 55' L (Item # 36028)
12' H x 14' W x 55' L (Item # 36026)
12' H x 12' W x 70' L (Item # 36023)
12' H x 14' W x 75' L (Item # 36029)
12' H x 12' W x 75' L (Item # 36024)
12' H x 14' W x 70' L (Item # 36025)

Douglas® Premium Knotted Braided Solid Core Polyethylene Black Tunnels:

Professional grade 3.0 polyethylene material is very durable and is weather, UV, mold and mildew resistant. No material provides better weather and UV resistance than polyethylene! All tunnels are made using 1-3/4" knotted square mesh. All tunnel borders and top centers are reinforced with 5/16" rope. Standard sizes are listed below. Tunnels can be customized to your size specifications. Custom tunnels use reinforced vinyl instead of 5/16" rope for borders and top centers. All nets include a convenient overlap style entry door. 4-year warranty. Please call for custom quotes.

Professional, BT-PRO 3.0

(3.0 mm Knotted; 4 Year Warranty)

12' H x 14' W x 55' L (Item # 36036)
12' H x 14' W x 70' L (Item # 36035)

Knotted HDPE High Density Polyethylene Hollow Core Black Tunnels:

Polyethylene material is UV-treated 1-3/4" square mesh with reinforced sewn rope borders. Includes 6' rope tails and sewn loops at the four corners for ease of installation. Overlap-style entry door at one corner on short end dimension.
