

Douglas® Steel Protective Screens

Choose from our Standard or Deluxe weight protective screen frames in either galvanized steel or black polyester powder coat finish. Both options feature Allied's® superior zinc Flo-coat® galvanization process for maximum protection. 3.5 Knotless Pylon protective netting is 1-3/4" square mesh and has a 325 lb break strength. Netting is UV and weather treated. Screens include a Slip-On style net however, the 7' x 10' fungo screens are only available with standard fitted nets with lacing cord. Slip-On style nets slide over the frame and only require lacing cord at the bottom to close the net. 5 Year limited warranty on frames.

Fungo/1st Base Screens
