

# SUPER SIX HEAVY DUTY BASKETBALL SYSTEMS

The Most Durable and Flexible  
Playground System Available!

Customize the BBS-6 Unit  
to your specific needs:

- 5 - Backboard Options
- 4 - Rim Options
- 2 - Installation Options

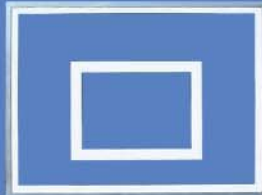

## Features & Specifications:

- BBS-6 Systems feature 4" square structural steel with 3/16" wall thickness, weighing 9.5 pounds per foot.
- The extension has a 4 1/2" square steel collar that fits 30" over the vertical pole and has (2) set bolts that allow for minor adjustments in height and squareness to the playing surface.
- The extension collar is permanently capped to prevent the extension from slipping when the set bolts are removed completely.
- The rim mounts through the backboard directly to the extension for maximum safety and better rebound.
- Both the extension and pole have an acrylic powder coat finish to prevent chipping and provide ultimate corrosion protection.
- Designed for official play.
- 3-piece installation design for easy installation and allows for minor adjustments or "fine tuning."
- A 72" extension for maximum safe play area and sets the pole 2' out-of-bounds for regulation play.
- Custom extension sizes available at 36", 48" and 60".

## Options:

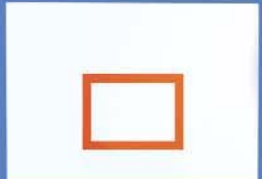

- Custom outdoor weather resistant pole pads and backboard pads are available in a variety of colors.

## RPG: Rectangular Clear Acrylic

1/2" Thick shatter proof clear acrylic. Fade resistant acrylic will never fog or cloud. Highly resistant to scuffs and abrasions. The outer frame is solid extruded aluminum with a glare free brushed finish for added rigidity and strength. Standard 5" x 5" hole pattern. Directly mounts to extension for increased safety and better rebound. 10-year limited warranty. Comes complete with mounting hardware and aluminum sway braces.

- 42" x 54" Playing Surface
- Shatter-Proof Clear Acrylic

## RAL: Rectangular Aluminum

Cast aluminum board features a 1/4" thick face and a 1/2" thick reinforced goal mount area. Back side is strengthened with cast-in reinforcement ribs. Will not rust and is virtually maintenance free. Standard 5" x 5" hole pattern. Directly mounts to extension for increased safety and better rebound. 10-year limited warranty. Comes complete with mounting hardware and aluminum sway braces.

- 42" x 60" Playing Surface
- Maintenance Free
- Official Orange Painted Target

## FAL: Fan Shaped Aluminum

Made from heavy-duty 12 gauge steel. Extra-strength mounting support structure. Standard 5" x 5" hole pattern. Directly mounts to extension for increased safety and better rebound. 10-year limited warranty. Comes complete with mounting hardware and aluminum sway braces.

- 39" x 54" Playing Surface
- Heavy-Duty Steel
- Official Orange Painted Target

## RST: Rectangular Steel

Made from heavy-duty 12 gauge steel. White graffiti resistant powder coat finish with official orange target. Extra strength steel mounting support structure. Standard 5" x 5" hole pattern. All edges are safety rolled to eliminate sharp edges and increase strength and rigidity. Directly mounts to extension for increased safety and better rebound. 10-year limited warranty. Comes complete with mounting hardware and aluminum sway braces.

- 42" x 60" Playing Surface
- Graffiti Resistant Powder Coat Finish
- Heavy-Duty Steel
- Official Orange Painted Target

## FST: Fan Shaped Steel

Made from heavy duty 12 gauge steel. White graffiti resistant powder coat finish with official orange target. Extra strength steel mounting support structure. Standard 5" x 5" hole pattern. Directly mounts to extension for increased safety and better rebound. 10-year limited warranty. Comes complete with mounting hardware and aluminum sway braces.

- 39" x 54" Playing Surface
- Graffiti Resistant Powder Coat Finish
- Heavy-Duty Steel
- Official Orange Painted Target

## PRESSURE FLEX™ MOVABLE GOAL

- Durable 5/8" solid steel, powder coated rim
- Shock absorbing mechanism enclosed within a formed steel cover
- Meets specifications for movable goals
- 12 no-tie net holders

## DURA GOAL I™

- Double steel ring goal with 5/8" top and 1/2" bottom
- Twin brace bars are 1/2" top and 3/8" bottom
- Powder coated finish
- 12 no-tie net holders

## DURA GOAL II™

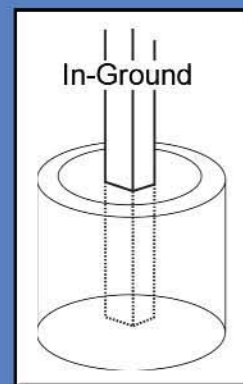

- Double steel ring goal with 5/8" top and 1/2" bottom
- Twin brace bars are 1/2" top and 3/8" bottom
- Bottom ring is indented to allow steel net to be fastened to the goal using "S" hooks
- Powder coated finish

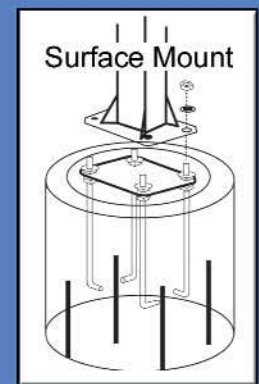

## BG-1

- Single 5/8" solid steel ring with
- 1/2" V-shaped steel braces
- 12 no-tie net holders
- Powder Coat finish
